

Self-Assessment Guide

Before undertaking any assessment, you should review the list of skills, knowledge and aptitudes relating to the assessment (drawn from the units of competency, its various elements and performance criteria) to determine whether you have current competency in these areas.

If you believe you can demonstrate the skills and knowledge required and can successfully complete the various assessment activities, you should then proceed to discuss your assessment with the assessor and complete Assessment Agreement.

However, should you not believe, for whatever reason, that you are not able to successfully complete the various assessment activities, then speak with the assessor. The assessor will assist you in identifying any skill and knowledge gaps, work through those with you and assist you as much as possible in attaining competency.

Please complete the self-assessment checklist below and discuss with the assessor.

Qualification	Certificate in Web Application Development with Python, Level 4.		
Candidate Name			
Application Serial/ Registration No.			
Instructions: - Read each of the questions in the left-hand column of the chart - Place a tick (√) in the appropriate box opposite each question to indicate your answer			
Can I?	YES	NO	
GU-11-L4-V1 Lead Small Team			
1. Provide team leadership			
2. Assign responsibilities			
3. Set performance expectations for
